In 1849, the University of Michigan Medical School opened its doors to train new doctors. In 1869, U-M opened the first university-owned hospital in the United States. Today....

- **We care for patients** of all ages through our hospitals, health centers & home care services.
  - Patients from every Michigan county, and other states & nations, seek our care.
  - Last fiscal year alone, that included 1.97 million outpatient visits, 45,400 hospital stays and 16,200 observation cases, 97,000 emergency visits, 49,700 surgical cases, 1,330 Survival Flight missions, & 542,000 medical imaging scans. Our patient care activity has risen by 4.3 percent this fiscal year.
  - We routinely rank among the best in the U.S. for care at our University Hospital, C.S. Mott Children’s Hospital, Von Voigtlander Women’s Hospital, Cardiovascular Center, Comprehensive Cancer Center, Comprehensive Diabetes Center, Depression Center, Geriatrics Center, Transplant Center & Kellogg Eye Center
  - We provide care at 40 U-M health centers across southeast Michigan, and in clinics, hospitals and homes across Michigan and northern Ohio – including the VA Ann Arbor Healthcare System.
  - We strive to provide the best and safest health care in the country, and our care is earning record-high patient satisfaction scores. See for yourself how well we’re doing at [www.uofmhealth.org/quality](http://www.uofmhealth.org/quality).

- **We are a medical research powerhouse**, with nearly $470 million/year in research dollars fueling discoveries in cancer, heart disease, diabetes, childhood illness & much more.
  - Our researchers compete on a national level to win funding from federal and state agencies, industry and nonprofit organizations. We’re #11 in the country, and #3 among public institutions, in medical school funding from the National Institutes of Health. 14 of our 25 departments rank in the top 10 in the country for NIH funding in their specialty.
  - Our research funding has an estimated economic impact of $1.2 billion.
  - Tens of thousands of Michigan men, women and children volunteer for our medical studies each year. See which of our 3,500 studies need participants, and sign up to be contacted about ones that need you at [www.umclinicalstudies.org](http://www.umclinicalstudies.org).
  - Our researchers create one-third of U-M’s patentable discoveries & nearly half of its agreements with industry.

- **We train tomorrow’s doctors, nurses, biomedical scientists and health professionals**
  - We offer medical & scientific graduate degree programs leading to M.D., M.S. and Ph.D. degrees, 96 residency & fellowship training programs for new doctors, hands-on learning for nursing & health professions students from U-M & other institutions, and continuing education courses for practicing physicians & nurses.
  - *U.S. News & World Report* ranks our M.D. program #12 in the U.S. among research schools and #8 among primary care schools, and our Ph.D. program #19

- **We are a community of nearly 27,000 Michiganders**, including 22,700 faculty & staff, 1,100 medical residents, 690 medical students, 1,200 scientists in training & 2,200 volunteers. Together, we’re creating the future of health care through discovery.
